Depending on project requirements, dimensions can be further customized, starting from a minimum width of 20 cm up to a maximum of 100 cm.

PROJECT OF THE WEEK

PENTHOUSE IN LUGANO

Thanks to the support of our local agency, **Planitech by DanieleVannozi**, and in partnership with one of the leading general contractors in the city, a prestigious **residential project** in the heart of **Lugano** is almost completed.

For these apartments—including a standout luxurious penthouse—some of our most prestigious collections have been selected, perfectly in line with the elegance of the location and the ongoing construction.

Surface56 and **Endless** enhance the walls of the living area, while **Radar** and **Planar** elegantly divide the interior spaces.

For the **boiserie**, a warm lacquered tone was chosen for the apartments, while a contemporary wood essence was selected for the penthouse.

The interior doors have been finished with **ICA's refined S-matt paints**.
